DETAILED ACTION

Status of Claims

1. Claims 7-24 are pending.
2. Claims 7-24 are rejected.

Interview Summary Record

3. In response to the updated search, a new rejection was made over the instant claims. For this reason, the substance of the Interview Summary of April 4, 2002 has been incorporated into the new rejections under 35 USC 112, 2nd Paragraph, see below.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
6. Claim 15 recites the limitation "said ester" in the claim. There is insufficient antecedent basis for this limitation in the claims because independent claim 13 does not recite the limitation of an ester. It is suggested that the dependency of claim 15 changes from claim 13 to claim 14 to obviate this anomaly.

7. Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

8. Claim 21 recites the limitation "said ester" in the claim. There is insufficient antecedent basis for this limitation in the claims because independent claim 19 does not recite the limitation of an ester. It is suggested that the dependency of claim 21 changes from claim 20 to claim 19 to obviate this anomaly.

9. Claim 24 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

10. Claim 24 recites the limitation "said ester" in the claim. There is insufficient antecedent basis for this limitation in the claims because independent claim 22 does not recite the limitation of an ester. It is suggested that the dependency of claim 24 changes from claim 22 to claim 23 to obviate this anomaly.

Obviousness-type Double Patenting

11. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225

Art Unit: 1614

USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

12. A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

13. Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

14. Claims 7-24 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-16 of U.S. Patent No. 6,015,833. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims of the isomerized conjugated linoleic acid are embraced and taught by U.S. Patent No. 6,015,833. Moreover, U.S. Patent No. 6,015,833 also teaches of peak areas of the isomerized conjugated linoleic acids.
